# MotorGuide: Transom Mounted

## Extending Your Reach

You can choose from a range of six durable, high performing market leading MotorGuide electric motors used the world over.

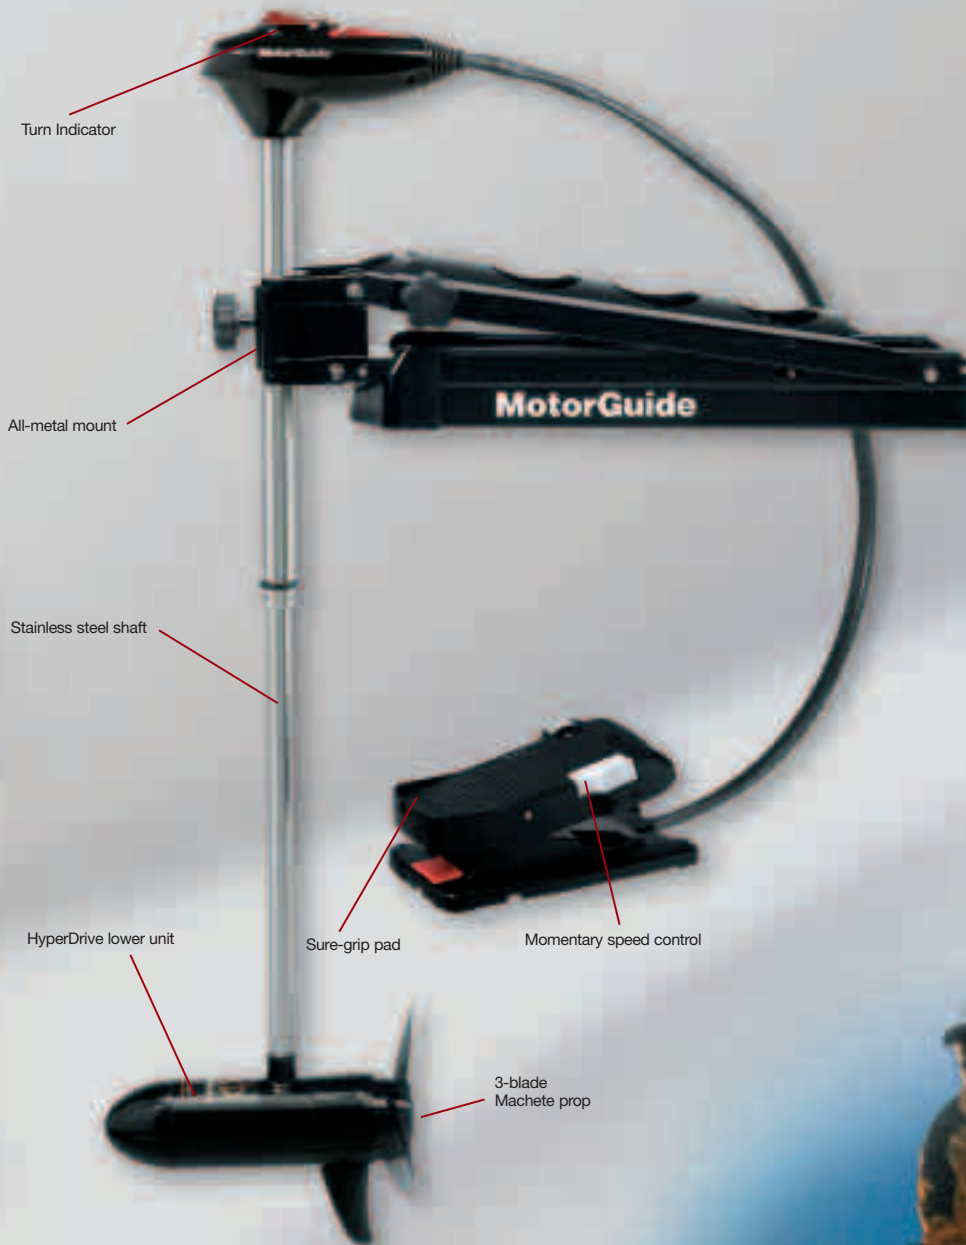

Choose from transom-mounted models offering 30 to 54 pounds of thrust or a pair of bow-mounted, foot-operated units at 46 and 54 pounds.

Feature-packed, MotorGuides include the longest extending twist-tillers on the market, impact resistance, weedless Machete props, extra-tough transom mounts and variable speed control, depending on the model.

MotorGuide: more versatility than ever before, all backed by Mercury Marine's international support system.

# MotorGuide: Bow Mounted

## MotorGuide Standard Benefits

- *For added protection, new two-part, double-dipped acrylic coating on all electronic boards and components*
- *Transom-mounted models have longest twist-tiller handles on the market*
- *Instant 360° steering response time*
- *Stainless steel shafts and all-metal mounts*
- *High performing three-blade Machete prop on all 46 and 54 pound models*
