MotorGuide: Transom Mounted

Extending Your Reach

You can choose from a range of eight durable, high performing market leading MotorGuide electric motors used the world over.

Choose from transom-mounted models offering 30 to 82 pounds of thrust or a pair of bow-mounted, foot-operated units at 46 and 54 pounds.

Feature-packed, MotorGuides include patented digital control, impact resistance, weedless Machete props, extra-tough transom mounts and variable speed control, depending on the model.

MotorGuide: more versatility and dependability than ever before.

MotorGuide: Bow Mounted

MotorGuide Standard Benefits

- **Exclusive Digital technology, provides better performance and improved reliability**
- **Stainless steel shafts and tough metal brackets engineered to last**
- **High performing new tapered design three-blade Machete prop on all 36 through 82 pound thrust models**
- **Worldwide service network for instant service back-up**
