SAILBOATS

A world leader in small boats.

For over 10 years Walker Bay has redefined the benchmark for small boats by combining the perfect balance of performance, aesthetics and engineering. Using high-pressure injection molding as the optimum manufacturing process, Walker Bay has succeeded in producing truly versatile, exceptionally crafted boats that are made to last.

Walker Bay's mission is simple; to bring the pleasure of boating to more people around the world, whether it is motoring, sailing, rowing, fishing or diving. An international team of naval architects, water sports professionals, designers, and leaders in the world of precision injection molding, work together to accomplish the Walker Bay goal. The vision is to create a line of award winning, top quality boats that are durable, lightweight, require virtually no maintenance while being versatile in function and affordable enough for everyone to enjoy.

1997

Walker Bay introduces the world's first injection molded boat, the Walker Bay 8.

2000

Following the success of the award winning 8, Walker Bay launches the Walker Bay 10 to meet growing market demand.

2002

Walker Bay introduces the innovative Rigid Inflatable Dinghy (RID), increasing stability, capacity & horsepower rating to the existing 8 and 10.

2005

Walker Bay redefines the inflatable boat industry with the introduction of the award winning Genesis RIB.

Recognized for ingenuity, Walker Bay has won over half a dozen awards including the 2006 National Marine Manufacturer's Association (NMMA) Innovation Award for boating innovation, the Montell Innovation Award for breakthrough technology in the plastics industry, and the Dutch HISWA Innovation Award for boating innovation & design.

SAIL MAGAZINE'S FREEMAN
K. PITTMAN AWARD

HISWA INNOVATION AWARD

With over 55,000 boats of incredible quality and value in over 50 countries around the world, Walker Bay continues to push the boundaries of innovation and technology.

Walker Bay stands by its products with a 10 year Hull Warranty, a 5 year 1100 Decitex Polymer and 10 year Hypalon® fabric warranty. All Walker Bay boats conform to the requirements of ISO 6185, the essential safety requirements of the new Recreation Craft Directive No. 94/25/EC and are CE Certified. All boats are tested and approved to the high standards of the National Marine Manufacturers Association.

Sometimes the biggest difference lies beneath the surface.

Injection molded for a better hull.

Experience the future of boat building. Genesis RIBs are manufactured using state-of-the-art injection molds, which enable the highest level of finishing and accuracy, providing detail & features not possible with other manufacturing processes. Precisely pre-measured High Impact Marine Composite (HIMC) resin is injected into the 82-ton steel mold with over 8,000 tons of clamp force. The result is a superior one-piece hull that is lightweight and extremely durable with no seams or joints to crack or leak. Custom-engineered UV resistant resins are used to create an incredibly durable and long lasting boat that has a superior strength to weight ratio over other materials.

HIMC HULL	FIBERGLASS HULL	ALUMINUM HULL
<ul style="list-style-type: none">• 10 Year Warranty• Incredibly durable & impact resistant• Scratches are less apparent & do not affect hull integrity• Forgiving & comfortable ride• Lightweight material• Exceptional value	<ul style="list-style-type: none">• 1-5 Year Warranty• Impact can puncture the hull• Scratches are apparent & allow for delamination & water gain• Bumpy & uncomfortable ride• Heavy material• Moderate value	<ul style="list-style-type: none">• 1-5 Year Warranty• Impact can dent the hull• Scratches are apparent & allow for corrosion• Jarring & uncomfortable ride• Lightweight material• Expensive
		

Environmentally Friendly.

While traditional fiberglass has a polluting manufacturing process, the injection molding process is entirely environmentally friendly and the materials are recyclable. The result is a durable and virtually maintenance free boat, one you can feel good about owning.

INJECTION MOLDED

SEAMLESS HULL

INCREDIBLE DURABILITY

Genesis, a boat for life.

Replaceable Tube Design.

With a hull that will last virtually forever, Genesis is the first RIB of its size which offers you the option to replace your tube. The hard-wearing Genesis hull features a removable tube design, offering ease of maintenance or future tube replacement. A boat for life.

Fabric Options.

Walker Bay is one of the only inflatable manufacturers in the world to offer a choice in fabric options. Using materials from the world's most respected fabric manufacturers, Walker Bay offers Genesis RIBs in two options: Polymer fabric for the casual user or someone living in an area with less U.V. exposure, and Orca® Hypalon, for a more avid user, or for more tropical climates. We take extra care in our construction to create a line of boats you can depend on.

1100 Decitex Polymer

All 1100 Decitex boats are made from a high-grade 32oz synthetic material which has an extra external layer of Polymer coating for increased durability. This creates a fabric which has been tested to give nearly twice the tear resistance and overall tensile strength of other Polymer fabrics.

1100 DECITEX POLYMER

Thermo-Seal™

Walker Bay's 1100 Decitex Polymer boats utilize a proprietary bonding technique where the material is heated under pressure to create a perfect adhesion seam area. A three layer process with all seams internally and externally butted end to end provides maximum strength and durability.

THERMO-SEAL CONSTRUCTION

ORCA® Hypalon

Walker Bay creates tubes from the finest Hypalon® material available. Four layers of calendared sheets offer guaranteed air-tightness and optimal adhesion. This combination of materials provides improved weather resistance against fading and aging as well as resistance to fuel, oil and everyday abrasions. The tubes are bonded using a three layer process with all seams internally and externally butted for maximum reliability. Our seams are built to last.

ORCA HYPALON®

Walker Bay stands by its product with a 10 year Hull Warranty, a 5 year 1100 Decitex Polymer and 10 year Hypalon® fabric warranty.

Simply Smart™

As with every Walker Bay boat, the true beauty is in the details. Every small point has been considered in the design of the Genesis Deluxe RIB and it is all packaged together in a revolutionary construction, which is more durable than anything else on the water. Genesis is truly something different.

Genesis 310 Folding Transom Deluxe (310 FTD)

Two Wheels in the Hull™ make launching a breeze, even with the engine on.

Deluxe Mid-Seat has a large storage compartment with a removable tray for valuables.

Below the Deluxe Mid-Seat is space for a fuel tank to be secured. The fuel tank is accessible through the seat.

Genesis FTD FOLDING TRANSOM DELUXE

The Genesis FTD's unique transom is extruded from 6061 aluminum with a hinged base which folds down when the tubes are deflated. The transom is extremely stiff, giving this boat the solid ride of a rigid transom while still allowing for the storage advantages of a folding design. There has never been such an easy to use and versatile small tender.

Transom Folds for easy transportation or storage (bag not included).

Deluxe mid-seat contains a storage compartment, removable tray/fuel hatch & cup holders

FEATURES

- One piece composite (HIMC) Hull
- Extruded aluminum folding transom
- 3 Chamber 43 cm tube
- Trim tabs house 2 Wheels in the Hull™
- Deluxe bow seat with dry storage
- Stowable telescopic oars
- Deluxe mid-seat with storage compartment, removable tray & cup holders
- 3 Integrated davit lifting points
- Removable non-skid floor with drainage slots
- Bilge area for drainage

Genesis FTL FOLDING TRANSOM LIGHT

For those most concerned with weight and portability, our lightest RIB has great features in a hull that folds and stores easily. Quick to plane, super durable and easy to store, the FTL also comes with a cup holder and a small storage compartment in the seat for valuables.

Transom Folds for easy transportation or storage (bag not included).

A dry storage compartment in the seat is perfect for small valuables like keys or a cell phone.

Walker Bay Rigid Dinghy & Rigid Inflatable Dinghy.

Rigid Dinghy.

Walker Bay's Rigid Dinghy offers a fun, practical boat that is lightweight, easy to handle, expertly engineered and requires no maintenance other than simple cleaning. With a virtually indestructible High Impact Marine Composite (HIMC) hull, Walker Bay boats are perfect for boating with family, a day of fishing or loading up as a tender.

Rigid Inflatable Dinghy.

Walker Bay's Rigid Inflatable Dinghy (RID) combines the best features of a reliable hard-shell dinghy with the stability and utility of an inflatable. The Variable Profile Design (VPD) tube, unique to Walker Bay, engages with the water only when required. Available in Orca® Hypalon® or PVC.

EASY TO TRANSPORT

Lightweight and easy to handle, these boats are a cinch to car-top or throw in the back of a truck.

WHEEL IN THE KEEL™

Launching your boat is a breeze with the integral Wheel in the Keel™.

ROWING SYSTEM

Walker Bay's Integrated Rowing System features Hydro Curve oars, oarlocks & collars.

EXCEPTIONAL COCKPIT SPACE

Because of the large rigid hull structure with external tubes, the RID has exceptional cockpit space for a small boat. Three comfortable seats provide secure internal seating for all passengers and greater cargo space.

Gray. Fits 340 – Part# 922033

Genesis Light Travel/Storage Bag

This durable, lightweight, UV protective bag also has holes in the bottom to allow Genesis' Wheels in the Hull™ to roll. Fits all Genesis RIBs. Available in Gray.

Fits 270 – Part# 922010
Fits 310 or 340 – Part# 922011

Bow Storage Bag

Store gear & belongings in the bow of your boat. Bag attaches & detaches easily and can be worn like a backpack to carry gear to & from your boat. Includes D-rings and pads to affix to the tube. Fits all Genesis boats.

PVC – Part# 922004
Hypalon – Part# 922005

Genesis Seat Storage Bag

Ventilated bag attaches under the mid-seat for additional storage. Offers both top & front access, and includes a shoulder strap to carry gear. Fits all Genesis RIBs.

Genesis Deluxe Seat – Part# 922000
Genesis Light Seat – Part# 922002

Genesis Deluxe Seat

Add another seat to your boat. This deluxe seat has a storage compartment with removable tray/fuel hatch and 2 cup holders. Includes seat mounting clips.

Part# 25100

Genesis Deluxe Seat Cushions

Add further comfort to your ride. Velcro straps secure cushion to seat. Mid-seat cushions include 2 cup holders. Available in White with Light Grey accents.

Bow Seat – Part# 925046
Mid-Seat – Part# 925045

Boat Dolly

Large 41 x 10 cm pneumatic wheels are mounted on injection molded rims. Fits all Walker Bay boats.

Part #912000

Fuel Tank Tie Down Straps

Secures fuel tank to floor. Fits all Genesis RIBs.

Part# 926101

Walker Bay Rigid Dinghy Accessories

Motor Tiller Extension

Allows steering from the mid-seat.

Part #911000

Bimini Top

Easily retractable and fits all Rigid Dinghies. Available in Blue.

Part #923610

Harness Davit System

Custom harness cables with eyebolts. Fits all Rigid Dinghies.

Part #914003

Replacement Oars

High-tech Hydro Curve Oars feature a detachable HPMC blade. 200 cm or 213 cm Includes collars.

200 cm Oars Part #99220
213 cm Oars Part #99221

Rigid Dinghy Mooring Covers

Keep your boat clean, dry & protected from the elements. Drainage Support Kit & Tie Down Straps recommended for boats stored outdoors (sold separately). Blue or Gray. See website for part numbers and information.

Deluxe Cushions (Set of 3)

Add more comfort to your boat. Bow cushion features an integrated bag and handle.

WB8/RID 275 Part #925039
WB10/RID 310 Part #925040

Saddle Bag

Hanging storage bag keeps your belongings dry and organized. Features a shoulder strap. 2 seat eyebolts & 2 clips included. Fits all Rigid Dinghies.

Part #921575
