**WATER SPORTS, CRUISING OR FANCY FISHING
WITH FRIENDS OR FAMILY ?
WHATEVER YOUR INTEREST,
THERE IS A QUICKSILVER BOAT TO FILL YOUR NEEDS.**

QUICKSILVER, A COMPLETE RANGE !

21 models in 6 product families, each meeting specific needs.

Looking for a thrill, fishing, beginner or amateur searching for new horizons. All our boats offer a remarkable adaptability to every need. Each model represents exceptional value for a long lasting investment.

Commander:	Open deck emphasizing accessibility and space. Ideally suited to good fishing and water sports. Feel the sensation of open!
Commander Walkaround:	Walkaround (WA) models offer a spacious cabin and berths for cruising comfort.
Cruiser:	More space is dedicated to the cabin offering comfort and shelter from the elements.
Weekend:	Made for cruising. Easy accessibility and all around comfort are the key words.
Pilothouse:	Optimized for fishing with all the necessary equipment to satisfy the avid angler.
Fish:	Enjoy simple boating pleasures. Independence, freedom and pride: everything you need from your boat.

Do you want quality spare parts to optimize your boat?

No need to look elsewhere: Quicksilver is here.

Purpose-designed parts, engine care products, propellers, anodes: you name it; there is an original part or accessory which will extend your engine durability while improving on-board safety and environmental protection.

Original and authentic parts will guarantee a long life for your investment.

ENGINE DETAILS

THE VERY BEST IN ENGINE POWER AND NAVIGATION

Choose among our vast range of robust and powerful Mercury or Mariner outboard engines or Cummins MerCruiser Diesel engines and sterndrives, the most appreciated of all times.

You'll have the very best and most up-to-the-minute engine power to take your boat out to enjoy the delights of the water.

On top of this, you will benefit from a national and international network of dealers.

OUTBOARDS

MERCURY

MARINER

Mercury:

Being the “#1 On The Water™” means leading the way in every aspect. From products to service to customer satisfaction, Mercury outperforms the competition at every turn. With Verado® for example, Mercury offers an exclusive engine concept that delivers the best 2 stroke performance in a 4 stroke package, with convenience- enhancing features that make every boat ride a unique experience. If your passion is water sports then Mercury OptiMax® is your power of choice. Mercury OptiMax® delivers 2 stroke performance with 4 stroke-like exhaust emission and fuel consumption. Mercury is also the leader in 4 stroke technology with the most modern range of 4 stroke outboards in the industry.

Mariner:

At Mariner we never forget the reasons why people choose boating as a hobby. No other sport offers you more possibilities to have fun than boating.

Since you buy a boat for the fun of it, it's important to specify an outboard engine that will help you get the most pleasure from your preferred boating experience. Mariner outboards will ensure you have complete confidence and peace of mind to relax and enjoy.

Mariner outboards are available in a full range of 2 stroke, 4 stroke and supercharged configurations.

4 STROKE

Intake, compression, power, exhaust. Those are the stages of four-cycle combustion. Because every combustion series consists of four discrete stages, 4 stroke engines tend to be quieter, smoother and more fuel efficient than traditional 2 strokes, all while producing lower emissions.

VERADO® SUPERCHARGED

Before Verado®, conventional 4 stroke outboards were reliable, but disappointing on performance. The revolutionary Verado® 4 stroke changed that by combining unmatched acceleration and responsiveness, unbeatable torque, precise control and ultra quiet operation, with industry-leading reliability.

OPTIMAX®

A Direct Injected engine that combines the heart, soul, speed and power of a traditional 2 stroke, but with the advantages of a 4 stroke. Its unique two-stage injection system creates a remarkably complete combustion – which means boaters can have a great time on the water while feeling good about conserving fuel and producing fewer emissions.

MERCRUISER 3.0 TKS (135 HP)

The MerCruiser 3.0 TKS – 135 HP engine starts with the turn of a key. Turn-Key Starting (TKS) offers fuel injection convenience without the fuel injection price. Just put in the key, turn and the engine roars to life. No choking, priming or pumping, even in cold weather.

- **Reliability:**
 - Extra large displacement produces power with good torque.
 - Industry-exclusive 3-year limited corrosion failure warranty.
- **Performance:**
 - Optimized intake manifold for improved fuel atomization and smoother power delivery.
 - Revised fuel calibration for crisp acceleration and improved running quality.
 - Low restriction flame arrestor for added horsepower and torque.
- **Easy ownership:**
 - 3-year/300 hour maintenance interval on many periodic service items saves time and money.
- **Technology:**
 - Helm-mounted Audio Warning System monitors oil pressure, engine temperature and drive lube level and provides instant alarm if any of these vary from normal range.
 - Available MerCathode® galvanic corrosion prevention system offers unmatched active electronic corrosion protection.
 - The Alpha® sterndrive delivers reliable performance in a value package.

MERCRUISER 4.3 MPI (220 HP)

The MerCruiser 4.3 MPI – 220 HP engine starts with the turn of a key.

- **Reliability:**
 - 4.3L displacement produces great power with good low end torque.
 - Industry-exclusive 3-year limited warranty against corrosion failure.
 - Smooth running 6-cylinder V-engine with balance shaft.
- **Performance:**
 - Optimized intake manifold for improved fuel atomization and smoother power delivery.
 - Revised fuel calibration for crisp acceleration and improved running quality.
 - Low restriction flame arrestor for added horsepower and torque.
- **Easy ownership:**
 - 3-year/300 hour maintenance interval on many periodic service items saves time and money.
- **Technology:**
 - Helm-mounted Audio Warning System monitors oil pressure, engine temperature and drive lube level and provides instant alarm if any of these vary from normal range.
 - Available MerCathode® galvanic corrosion prevention system offers unmatched active electronic corrosion protection.
 - The Alpha® sterndrive delivers reliable performance and top speed in a value package.

CUMMINS MERCRUISER DIESEL (CMD)

CMD is focused on bringing a greater level of enjoyment, efficiency and reliability to the recreational boater. From a day cruise with your family to a season-long excursion to sportfishing in the islands, CMD engines are built for maximum strength, performance and safety.

The advantages of CMD engines include outstanding fuel economy and range, higher torque for greater power, durability for longer engine life, instant start-up in cold weather, virtually smoke and odor free, lighter weight/ increased power and simplified engine information management. All CMD engines are EPA, Tier 2, IMO, RCD and select BSD/SAV certified.

- **CMD 2.0L 130 HP – 640 WEEKEND**
- **CMD 2.0L 150 HP – 700 WEEKEND**

Combining the quiet, smooth performance of a traditional gasoline engine with the added fuel economy, torque and durability of a diesel, this four cylinder compact powerhouse features an advanced ECM with SmartCraft® compatibility to monitor various engine parameters. The QSD2.0 also features advanced components like the integrated heat exchanger and exhaust manifold, which also help reduce overall package size. Impressive acceleration and precise throttle response are the result of a 16 valve cylinder head and a proven common rail fuel system that includes a turbocharger and seawater aftercooler.

Brunswick Marine *in* EMEA continuously explores means to improve the products it designs, manufactures and distributes. Every effort is made to produce sales and service literature which is current. Changes to specifications of engines, boats and accessories are ongoing. This brochure should not be regarded as a precise guide to the latest specifications. This brochure is also not an offer for sales of any particular engine, boat or accessory. Distributors and dealers are not agents of Brunswick Marine *in* EMEA or one of its affiliates and they have no authority to bind Brunswick Marine *in* EMEA by any express undertaking or representation, including but not limited to representations of product, sales, applications or service nature. Not all products are available in all countries and some are available only in limited quantities. Some products shown in this catalogue are equipped with optional accessories. Please see your local dealer.
