

ARVOR

QUICKSILVER[®]
CAPTUR

ARVOR

This is the natural choice for fishing. A range of boats that combines reliability, practicality and technology to make all those trips memorable.

When it comes to power, you've got everything you need to get you there and back safely and smoothly. Solid diesel inboard engines blend higher displacement with the very latest advancements to deliver the performance, dependability and extreme trolling capability you need. Superior engine technology that also cuts fuel consumption and emissions.

For even greater reassurance, a low centre of gravity means a stable ride and position when you're fishing, while a transom door and high freeboards provide easy access getting in and around the boat. And to put you further at ease, the comfortable cabin includes a seating area that also turns into a berth.

You also get more space and fishing access aft – all helped by the propeller being neatly tucked away underneath. Add in rodholders, fish lockers, a cutting board and a livewell all as standard and there's nothing to get in the way of you and a great day's fishing.

QUICKSILVER®

MERCURY DIESEL MORE TORQUE – LESS FUEL – IDEAL FOR FISHING

One of the key differences between a gas and diesel inboard engine is that diesels, while running at lower RPMs, have more pulling power than the gas counterparts. Up to 30% more torque, in fact.

For marine use, this makes diesels ideal for low-speed trolling – especially with multiple lines – allowing the boat to travel slowly and steadily without understressing the engine. Which means better control, less wear on the engine and less fuel consumption. All of which adds up to a reliable inboard power pack that will last longer and is cheaper to run. Plus, an inboard diesel gives better access to your transom area, and its deeper, more forward positioned propeller won't snarl your nets.

Mercury's range of robust and practical inboard diesels are the ideal answer to your every fishing need. Equipped with Common Rail Electronic Injection as well as a turbo-compressor, and fully compatible with Smart Craft Electronics, Mercury Diesel engines deliver quick response and superior performance and cruise power, but with excellent fuel economy. Plus, today's advanced technology means that our diesels have low emissions and quiet running.

Each Mercury Diesel engine that leaves the factory has undergone a series of rigorous tests to ensure quality, reliability and longevity, while ongoing maintenance is straightforward, thanks to the simple engine design and easily accessible service points.

With the world's largest dealer network, you can be sure that your local Mercury Marine dealer and service centre isn't far away.

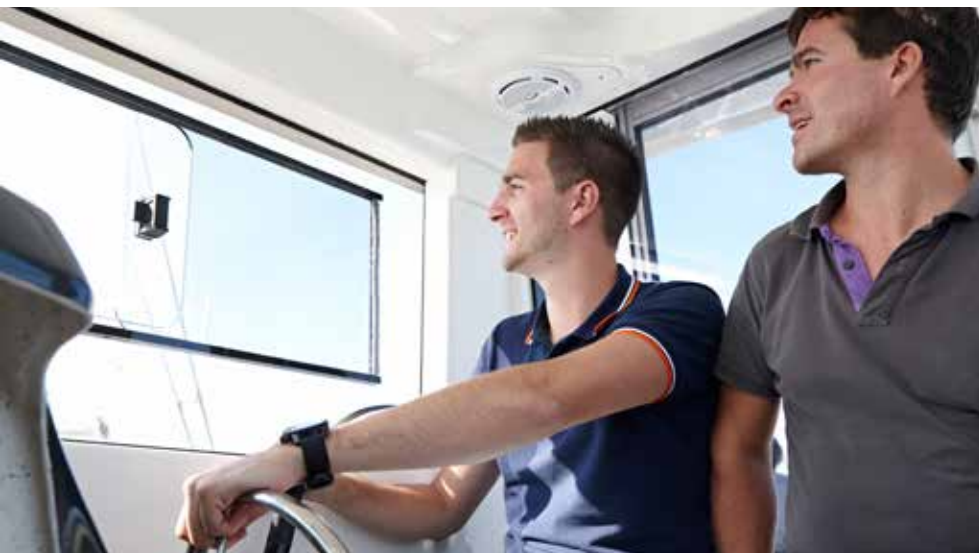

690 ARVOR

FISHING HAS NEVER BEEN BETTER

For people who are serious about enjoying their fishing, the new 690 Arvor promises an experience that has never been better. Combining the well-known values of the Arvor with a modern pilot house with 360° visibility and great comfort features, the 690 Arvor offers literally the best of both worlds. Powered by Mercury Diesel inboard you can cruise at trolling speed for hours without any unnecessary wear on the engine. The 690 Arvor also has a top speed of over 21 knots.

Length Overall (M)	6,88
Fuel Capacity (L)	90
Beam Maximum (M)	2,54
CE Design Category	C
Height - Without Canvas (M)	2,90
Maximum Number of People	6
Dry Weight (Kg)	1600
Maximum Power (HP/kW)	115/84,6

SAFETY

The 690 Arvor offers a wealth of safety features that will allow you to fish and navigate with peace of mind. A bow thruster and electric trim tabs for manoeuvring and cruising with precision and complete confidence. High cockpit freeboards, bow safety rails, and anti-skid surface, complemented by the new bow seating. And a 690 Arvor offers 360° visibility when you are at the helm, a large swim platform for easy access to the water and a transom door access that allow you to get on and off the boat either from the quay or the water in complete safety and comfort.

FISHING

More than anything, the inboard Mercury Diesel engine is what makes the Arvor a real fishing boat. Because it's diesel, you can troll for hours with no extra engine wear, but it's also fast enough to get you to where the fish are at a handy 21 knots. An ample cockpit is packed with features to delight every angler – rod holders, livewell, fish lockers and cutting board– while the forward area also provides a stable fishing area. And of course, when you're done fishing, what could be better than brewing some fresh coffee in on the portable stove located in the cabin?

COMFORT

Fishing is one thing, but fishing in comfort is altogether better. The 690 Arvor can comfortably sleep two. It has a roof hatch and a sliding window for extra ventilation, a wider sliding door for extra ease of access and an optional marine toilet. On deck, easy access from stern to bow is provided by a large pass on the starboard side, while up forward a new bow seating area allows for cruising and fishing in complete comfort. And for the very best in navigation comfort, the 690 Arvor offers an optional dual helm station.

STORAGE

The 690 Arvor creates the space you need while offering plenty of storage. Improved rod storage will keep your fishing rods safe and secure. Lockers in the cockpit floor and storage under the berth provide a variety of safe, accessible locations for you to keep all of the things you need for fishing and fun.

9 Double berth with storage below and berth cushions

4 Port flip down seat

730 ARVOR

NOW YOU CAN HAVE THE BEST OF BOTH WORLDS

For those who love their fishing, but also want to have fun, the new 730 Arvor promises an experience that has never been better. Combining the secure, seamanlike values of the Arvor hull with a modern pilot house cabin with 360° visibility and great comfort features, the new Arvor range offers literally the best of both worlds. Powered by an inboard Mercury Diesel 150hp, these craft can motor at trolling speed for hours, and they're also quick enough to get from place to place at speeds of up to 25 knots, putting you firmly on course for what must be the best fishing experience available in this category.

Length Overall (M)	7,30
Fuel Capacity (L)	135
Beam Maximum (M)	2,78
CE Design Category	C
Height - Without Canvas (M)	3,03
Maximum Number of People	6
Dry Weight (Kg)	2005
Maximum Power (HP/kW)	150/110

SAFETY

A tried and tested profile, the Arvor offers robust manoeuvring capacities and excellent sea handling. Its larger cockpit has been remodelled to offer better access to and from the water, with a high freeboard to ensure your safety in the cockpit a wider transom door that allow you to get on and off the boat either from the quay or the water in complete safety and comfort. At the helm you have a 360° visibility and dual wipers, while the walk-around access and bow rails ensure total security up forward.

FISHING

The cockpit is ideal for fishing and offers space for 4 persons to fish of. It is packed with a wealth of features - rodholders, livewell, fish lockers, cutting board- it's sure to bring a smile to every angler's lips. The 730 Arvor comes with the 150hp inboard Mercury Diesel engine with a trolling valve, which means you can troll for hours without understressing the engine, but you can also get to where the fish are a comfortable speed. And of course, the fresh water sink and butane stove in the cabin mean you can cook you catch at the end of the day.

COMFORT

The 730 Arvor's roomy cabin just makes fishing all the more enjoyable. Comfortably sleeping two, its 360° visibility gives it a light and airy feel inside, while protecting you from the elements. The roof hatch and a sliding window offer extra ventilation, and the wider sliding door gives extra ease of access in and out. On deck, anti-skid surfaces at key points mean better manoeuvrability around the boat, and for the very best in navigation comfort, go for the optional dual helm station.

STORAGE

Besides offering plenty of space, the new 730 Arvor also boasts plenty of storage. The cockpit rod storage keeps your fishing rods safe and out of the way. Lockers in the cockpit floor and additional space under the berth provide a variety of safe, accessible locations for you to keep all of the things you need for fishing and fun.

250 ARVOR

ENJOY YOUR FISHING IN SPACE, COMFORT AND STYLE

A standard bow thruster makes manoeuvring in port easier than ever while standard trim tabs simplify adjustment of your boat under different loads and sea conditions. Additional standard equipment includes a trolling valve and an electric windlass. A sink, cooker and table allow you to cook and eat your catch right on board. The head is neatly hidden below the steering position. The big, open deck, with fold-down wooden benches, provides plenty of space to move around. The transom features an original livewell with an electric pump for seawater circulation and an aquarium-style window placed at waist height. Further aft, the standard stern platform enables easy access and includes an auxiliary outboard engine bracket. The 250 Arvor features vinyl cabin trim, tropical wood inserts and inside door finishes as well as teak laminate on the cabin and wheelhouse floor.

Length Overall (M)	8,30
Fuel Capacity (L)	300
Beam Maximum (M)	2,93
CE Design Category	B
Height - Without Canvas (M)	3,40
Maximum Number of People	8
Dry Weight (Kg)	2775
Maximum Power (HP/kW)	220/161

SAFETY

- Low centre of gravity ensures stable ride of the boat and stable position while fishing
- High freeboard for fisherman safety
- Transom door to ease access in and out of the boat
- Standard trim tabs simplify adjustment of your boat under different loads and sea conditions

FISHING

- Integrated trolling valve into the transmission allows extreme slow trolling for hours without risk of damage to the engine or transmission
- Thanks to the inboard engine, fishing line does not easily get caught in the propeller
- Clear and non-obstructed view on the rear to ease fishing all around the cockpit
- The big open deck, with fold-down wooden benches, provides plenty of space to move around. The transom features an original livewell with an electric pump for seawater circulation and an aquarium-style window placed at waist height

COMFORT

- Comfortable cabin with pilot and co-pilot seat, seating area that converts into berth
- Hydraulic steering makes driving and manoeuvring a true pleasure
- A standard electric windlass to ease mooring
- A standard bow thruster to ease docking
- A sink, cooker and table allow you to cook and eat your catch right on board
- The big open deck, with fold-down wooden benches, provides plenty of space to move around

STORAGE

- A lot of storage available for fishing equipment in the wheelhouse
- Fish lockers in the cockpit to keep your catch of the day

1 Asymmetric wheelhouse with a wide and safe passage to the bow on starboard

2 Large and clear cockpit for intensive fishing activities

4 Permanent galley with single burner stove and sink to cook your catch of the day

5 The boat is fully equipped for fishing expedition: livewell with pump, rodholders, gunwale rollers and cutting board

5 The boat is fully equipped for fishing expedition: livewell with pump, rodholders, gunwale rollers and cutting board

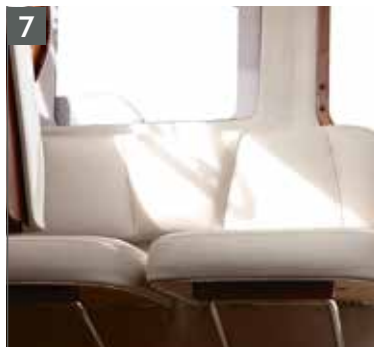

5 The boat is fully equipped for fishing expedition: livewell with pump, rodholders, gunwale rollers and cutting board

6

Transom door to ease access in and out of the boat

7

Pilot and co-pilot seat

9

Double berth

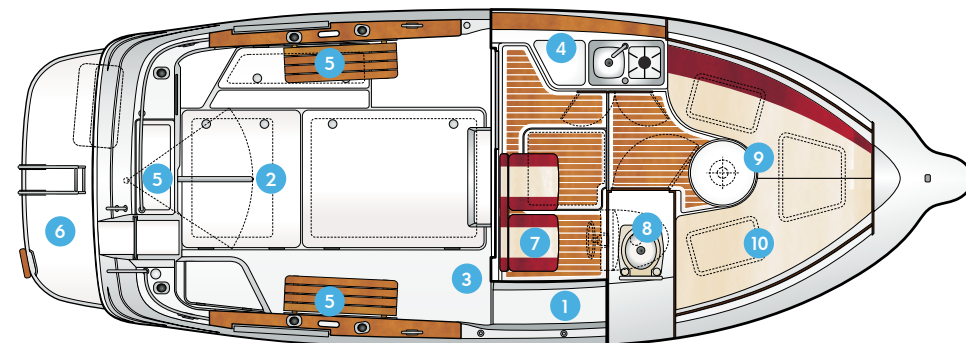

10

Social/Dinning area

MODEL FEATURES

1. Asymmetric wheelhouse with a wide and safe passage to the bow on starboard
2. Large and clear cockpit for intensive fishing activities
